

How to use the template from a desktop to make a custom feed image:

1. Click the Canva template link [HERE](#)
2. You must log into a Canva account or create a free Canva account [HERE](#).
3. Navigate to “Uploads” in the left-hand toolbar. Click the purple “upload” files button. Upload the photo of your choice!
4. Click and hold the image of your choice in the Image Gallery and drag it over the template, dropping it over the placeholder image.
5. Click the “Share” button at the top right-hand corner of the Canva site and click “download.”
6. Head over to Facebook and/or Instagram and post to your feed!
